Funded debt (total, $21,504,000), June 30, 1902, consisted of $13,000,000 funding and real estate 50-yr. 4½ p. c. $1,000 gold bonds, due May 1, 1950, int. May 1 and Nov. 1, at treasurer's office, and $8,504,000 collateral trust 5 p. c. 50-yr. bonds, due Jan. 1, 1938, int. Jan. and July, at Mercantile Trust Co., N. Y.

During the past fiscal year the $1,158,000 7 p. c. building bonds, due May 1, 1902, were paid off and retired. To provide the money necessary for that purpose, $1,000,000 4½ p. c. funding and real estate mortgage bonds were issued, $2,000,000 of the same class of bonds were also issued, under resolutions of the board of directors, prescribing that the proceeds thereof are to be used solely for or on account of the purchases of improvements, betterments, and extensions of the property of the company; $2,000 collateral trust 5 p. c. bonds were exchanged for the same amount of the capital stock of the New York Mutual Telegraph Co. upon which dividends, at the rate of

6 p. c. per annum, were paid. The bonded debt of the company has, therefore, been increased from $19,660,000 to $21,504,000 during the past fiscal year. The increase of the interest charges is, however, only $54,040 per annum.

The authorized amount of funding and real estate 4½ p. c. gold bonds is $20,000,000. They are in either coupon or registered form, inter-convertible. The coupon bonds are also registerable as to the principal by endorsement by the Telegraph Co. thereon. Of these bonds, $10,000,000 were issued, and from the proceeds thereof the following bonds were retired and paid off: 6 p. c. bonds due March 1, 1900, $761,000; 7 p. c. bonds due May 1, 1900, $4,920,000. These bonds are secured by mortgage to the Farmers' Loan and Trust Co., New York, trustee, upon the company's real estate in the cities of New York and Chicago, subject, however, to the real estate mortgage for $1,163,000 on the New York property, due 1902. The remainder of the authorized issue is to be used solely for improvements, betterments, and extensions of the property and the development and enlargement of the business of the Telegraph Co., or for such other corporate purposes as may be authorized by law. The value of the real estate covered by the new mortgage is about $5,000,000. No provision is made for a sinking fund for retiring the bonds.

The company's assets consist of two trans-Atlantic submarine telegraph cables between Sennen Cove, England, and Dover Bay, Nova Scotia. In England special wires, by contract with the English Postal Department, connect the cables with London and Liverpool. In America connection is made with all places in the United States and Canada under contract with the Western Union Telegraph Co. and the Great Northwestern Telegraph Co. An agreement dated May 12, 1882, was made with the Anglo-American Telegraph Co., the Direct United States Cable Co., and La Compagnie Francaise du Telegraphe de Paris at New York, by which, for 38 years, the A. T. & C. Co. receives the following proportion of the combined revenues of the four companies: While one cable is working, 12½ p. c.; while both cables are working, 22½ p. c.

By agreement dated May 12, 1882, all the property, rights and privileges of this company, as represented by its two trans-Atlantic cables and their equipment, are leased to the Western Union Telegraph Co. for 50 years, at a rental of 5 p. c. per annum on $14,000,000 stock, lessee to maintain, operate and renew them.

Financial Statement.—Capital stock ($100 shares), $14,000,000, was issued to the American Cable Construction Co. for the two trans-Atlantic cables between England and Nova Scotia. R. C. Clowry, Pres.; Thomas F. Clark, Sec.; Myron T. Wilbur, Treas., New York, N. Y. General Office, New York, N. Y.

WESTINGHOUSE ELECTRIC AND MANUFACTURING CO.—Incorp. under laws of Pennsylvania, in 1872. This company carries on the manufacture and sale of machinery and appliances for the generation, transmission and utilization of electricity. The company owns a valuable factory plant at East Pittsburgh, Pa., on real estate free and unencumbered, employing about 10,000 men in its various departments. The company controls, under leased agreements, the factories of the United States Electric Lighting Co., at Newark, N. J., and the factory of the

Consolidated Electric Light Co., in West 23d Street, New York, in the name of the Sawyer-Man Electric Co. In Sept., 1898, the company purchased the capital stock and all except $850,000 of the $2,500,000 bonds of the Walker Co. of Cleveland, O. (see MANUAL for 1899, page 1200). In May, 1902, the steel motor business of the Lorain Steel Co. was purchased. The company holds £393,250 preference shares and £375,460 ordinary shares of stock of the British Westinghouse Electric and Manufacturing Co., Limited. It also owns 5,902,500 francs of the capital stock of La Société Anonyme Westinghouse, a corporation with an aggregate capital stock of 20,000,000 francs, which was organized jointly with the Westinghouse Air Brake Co. to manufacture electrical and air brake apparatus for France, Spain, Belgium, Portugal, Switzerland and Holland.

OPERATIONS AND SALES.—The net shipments or sales were as follows: For the year ending March 31, 1898, $4,378,060.30; year ending March 31, 1899, $6,901,760.17; year ending March 31, 1900, $12,793,704; year ending March 31, 1901, $15,853,481; year ending March 31, 1902, $19,975,958; year ending March 31, 1903, $23,899,493.

These earnings, after liberal deductions for depreciation and other purposes, exceed 20 p. c. upon the outstanding capital stock. Dividends have been paid at the rate of 7 p. c. per annum upon the preferred stock since 1892, and at the same rate upon the " assenting " stock since Aug., 1901.

The debenture gold certificates are for $1,000 each, dated 1898, due 1913, interest Jan. and July, at the office of the trustee, Mercantile Trust Co., New York, N. Y. The proceeds of these certificates were used, in part, in retiring the company's indebtedness. A sinking fund of $150,000 per annum from July, 1900, is provided to pay off the debentures at 105, to be drawn by lot. Of the $3,500,000 debentures issued by the company, $150,000 were retired on July 1, 1900, $150,000 on July 1, 1901, $150,000 on July 1, 1902, and $150,000 on July 1, 1903, leaving $2,900,000 outstanding. The authorized capital stock was increased Feb. 20, 1901, from $15,000,000 to $25,000,000, the increase (of which $3,000,000 has been issued) to consist of 2d preferred or assenting stock. On May 13, 1903, $4,500,000 additional was sold to the stockholders at the price of $80 per $50 share. The proceeds of this issue of stock will be used to provide additional working capital for the expenditures involved in the additions to the company's works and for other capital expenditures.

All classes of stock have the same voting power per share. The preferred stock is entitled to a cumulative preferred dividend of 7 p. c. payable quarterly, Jan. 1, April 1, July 1 and Oct. 1, and, in addition, to a proportionate share of all dividends declared in any year after 7 p. c. has been paid on the other stocks outstanding. The preferred stock has also a preference in the assets of the company in case of liquidation over all other stocks. No mortgage can be placed on the property of the company without the consent of a majority of the stockholders.

Inasmuch as the preferred stock is entitled to participate pro rata with the " assenting " stock in dividends above 7 p. c. per annum, it was proposed on July 1, 1903, to make the dates for the payment of dividends on both classes of stock coincide by the payment of a proportionate dividend on the " assenting " shares, so that there can be no possible discrimination or inconvenience in the event of the payment of dividends at rates exceeding 7 p. c. per annum.

A dividend was paid July 10, 1903, for the period ending June 30, 1903, putting both stocks on a 10 p. c. basis as of May 15, 1903.

They have not paid dividends. None of them has any mortgage indebtedness.

Certificates of the above-mentioned shares of stock have been duly endorsed by the company and deposited with the trustee under the mortgage. The mortgage provides that the deposited stocks shall not be voted to authorize the creation of any secured indebtedness of any corporation, a majority of whose shares are deposited thereunder, nor the creation of any lien or charge on its property—except (1) in substitution for other indebtedness or liens or charges; or (2) to procure funds from the Lackawanna Steel Co. for betterments, etc.; or (3) in case of a purchase money lien applying only to the property purchased; nor can the deposited stocks be voted for the increase of capital stock, or for merger, sale or lease, or in favor of a preference in stock; but the subsidiary corporations may be merged or the property of one sold to another, a proportionate amount of the stock of the consolidated or purchasing company being deposited under the mortgage.

The bonds are for $1,000 each, in coupon form, with privilege of registration as to principal. They bear date April 1, 1903, mature April 1, 1923, bear interest from April 1, 1903, payable April 1 and October 1, are payable principal and interest, at the office or agency of the Lackawanna Steel Company in the City of New York, in gold coin of the United States of or equal to the present standard, without deduction for taxes or assessments of any kind which the company may be required to pay or to retain therefrom by virtue of any present or future law of the United States, or of any State, county or municipality therein. The entire series of bonds is redeemable at the option of the company, on April 1, 1906, or on any interest day prior thereto, on sixty days' previous notice, at 107½ p. c. of par and accrued interest; and, if not so redeemed, the holder may, at his option, on any day after April 1, 1906, and not later than April 1, 1915, convert the principal of any of the bonds held by him into an equal amount at par of stock of the company.

The authorized issue is $20,000,000. Under the provisions of the mortgage $15,000,000 of the bonds to be issued thereunder are to be certified by the trustee upon demand of the company; and at or about Oct. 1, 1903, practically the whole of this amount was outstanding in the hands of the public. The mortgage provides that the remaining $5,000,000 of said bonds may be issued, certified and delivered at any time after Jan. 1, 1904, only for property to be acquired by the company, and not in excess of two-thirds of the actual cost of such property to the company; all property acquired by use of these bonds to become subject to the lien of the mortgage.

They are for $1,000 each (but may be issued in denominations of $1,000, $500 or $100), in coupon form, with privilege of registration as to principal. Default was made in payment of the interest due July 1, 1903, and suit was brought for foreclosure of the mortgage.

The collateral bonds are secured by second mortgage to the New York Security and Trust Co., as trustee, on the properties covered by the first mortgage and are further secured by pledge of all the shares of stock of the Bethlehem Steel Co. and of a bond for $10,000,000 secured by a mortgage executed by the Bethlehem Steel Co. to the Colonial Trust Co. of New York, as trustee, conveying all the property and franchises of the Bethlehem Steel Co., subject to two prior mortgages securing $8,851,000 of outstanding underlying bonds. The $10,000,000 bond of the Bethlehem Steel Co. contains a provision that upon a default being made in the Shipbuilding Co.'s bonds or mortgage, payment of the full amount of the Shipbuilding Co.'s bonds may be enforced against the Steel Co. Default was made on the interest due Aug. 1, 1902, and it is proposed to bring suit for the foreclosure of the mortgage.

RECEIVERSHIP.—In May, 1903, a plan of reorganization was promulgated, which provided, in brief, for the scaling down of the company's capital liabilities of $69,500,000 bonds and stock to a total of $43,000,000, consisting of $12,000,000 1st mtge. bonds, $16,000,000 preferred stock and $15,000,000 common stock, the present 1st mtge. bonds to be exchanged, dollar for dollar, for new preferred stock and to receive a bonus of 20 p. c. in new common stock; the collateral bonds to be assessed $2,000,000 in cash as additional working capital and to receive the $12,000,000 new 1st mtge. bonds, $1,500,000 (15 p. c.) of the new preferred stock, and $1,600,000 (16 p. c.) of the new common stock; and the preferred and common stock to receive respectively 40 p. c. and 10 p. c. in new common stock. This plan was opposed by holders of the 1st mtge. bonds, and at their instance the company was declared insolvent and a receiver appointed on July 1, 1903. The plan of reorganization having failed of acceptance by the security holders has been abandoned, and up to the time this part of the MANUAL was sent to press no new plan had been published.

UNITED STATES OF AMERICA.

Sketch of the National Debt.—The treasury department was established in 1789, and about a year later the Government assumed debts of the confederation and of the individual States, amounting to $72,775,895. The first important loan was one of $13,000,000, made in 1803, to provide for the purchase of Louisiana; and one of $16,000,000 was made in 1813, to meet the cost of the war of 1812. During President Jackson's administration, between 1829 and 1835, the entire public dept was paid off, and in 1836 the Government found itself in possession of a surplus of over $40,000,000. The depression of 1837-1842 and the Mexican war increased the debt till it amounted to about $79,000,000 in 1851. Shortly thereafter, however, treasury funds began to increase rapidly, and the Government began to buy in its securities at a premium. By the acceptance of various offers by the Government to purchase bonds at different and heavy rates of premium, the debt was reduced to $25,165,154 on Oct. 1, 1857. After the panic of 1857, the debt began to increase again, and by Jan. 1, 1861, it had crossed the $72,000,000 mark. The Civil War added enormous sums to it, until on Sept. 1, 1865, it had reached its highest figures, $2,757,689,571. The following table gives a complete list of the bonds and other securities issued on account of the Civil War:

The City Treas. is required to pay $50,000 annually to this commission—$32,748 for payment of 6 p. c. coupons; the balance ($17,252) is placed on account of sinking fund to be used for the purchase of bonds of the United States, State of Georgia, or cities of Macon, Savannah, Augusta, or Atlanta. A legal issue of bonds must be within 7 p. c. of the assessed value of property; two-thirds of the vote of the city is required to favor the issue. A default was made in 1878 and in 1880 a Bond Commission was authorized, and the entire debt funded into 6s. Authority, A. R. Tinsley, City Treasurer.

The present laws prohibit any increase in the city's debt. Sinking fund: Issue of 1879 shall redeem $10,000 for first five years, $25,000 for next ten years, and $40,000 for succeeding years; issue of 1883 shall redeem $6,000 per annum. STATE OF ILLINOIS.

History.—In 1809 Illinois Territory was organized, comprising the present States of Illinois and Wisconsin, and part of Minnesota. On Dec. 3, 1818, under Act of April 18, 1818, Illinois was admitted into the Union. Area, 56,000 sq. miles. Pop., 1890, 3,826,351; 1900, 4,821,550. Equalized val.: 1902, $1,030,292,495. For statement showing, by counties, the area, population, etc., also State population, assessed valuation, etc., for several years, see previous issues of the MANUAL.

Bonded debt, Oct. 1, 1902.—There are only $18,500 bonds outstanding, but these have ceased to bear interest, having been called for payment but not presented. Bonds were issued as early as 1837, for internal improvements, etc., but they became such a drag on the credit of the State (default having been made in 1841 on the $15,000,000 or so of them issued) that in 1848 a new constitution was framed which prohibited the creation of any future debt in excess of $50,000, except in case of invasion or rebellion, and prohibited the loaning of the credit of the State to any individual, association or corporation; also providing for the extinguishment of the debt by a special tax levy. By the constitution of 1870 the aggregate debt which may be raised ("to meet the casual deficits and failures of revenue") is increased to $250,000.

Illinois Central Railroad Fund—Report of Gross Earnings and Payments to the State.—The charter of the Illinois Central RR. Co. exempts it from taxation, but requires a payment to the State of 7 p. c. of the gross receipts of the original railroad, 705.50 m. (see General Index for statement of the Illinois Central RR. Co.). In the MANUAL for 1894 was published a statement showing the gross earnings of the road and the amounts paid into the State Treasury for each half year from Oct., 1855, to April, 1892, inclusive; the aggregate sum received by the State being $13,175,352. The gross receipts of the road from April 1, 1901, to April 30, 1902, inclusive, were $12,661,928, the State's percentage (7) was $886,335. Total paid the State to April 30, 1902, $20,088,017. Statement of receipts and disbursements during two years ending Sept. 30, 1902: Cash on hand, Oct. 1, 1900, $2,617,956; amount received, $16,382,020—total, $18,999,976. Disbursements: Warrants paid, $15,621,652; balance in treasury, Oct. 1, 1902, $3,378,324—total, $18,999,976.

New School Bond to Board of Educa.	Mch. 11, 1892		6	½ yearly	606,650	36,399

The State and County School bonds, above recited, are not, strictly speaking, a debt of the State. They are irredeemable; the fund is inviolate; and the 6 p. c. semi-annual interest drawn by these bonds is provided for out of the five cents of revenue placed to the credit of the sinking fund annually. There are also outstanding, in addition to the before described bonds, $394 old railroad scrip, past due; $5,000 of the old 30-yr. issue of 1835, past due over 30 years; $1,000 of an old issue made from April, 1841, to April, 1846, also long past due. These $6,394 bonds have not been heard from in many years, and are supposed to be lost or destroyed. They can hardly be considered as part of the present bonded debt of the State. The Military bonds were issued from Aug., 1864, to Jan., 1866, and are held by the Agricultural and Mechanical College at Lexington. Interest on Military bonds payable at the State Treasury, Frankfort, Ky., and in New York City; on the certificates of indebtedness at the United States National Bank, New York.

These new bonds bear the same rate of interest as the others, and mature same date as the old bonds. Interest payable in New York, New Orleans and Baton Rouge. The premium bonds are for $20 each, payable to bearer, and bear 5 p. c. interest from July 15, 1875. Each bond increases in value 50 cents semi-annually, until the 50th year, when they represent in principal and interest $70 each. The bonds are divided into series of 100 bonds each, and drawn for every Jan., April, July and Oct. The sinking fund till the year 1925 will average $204,960 annually, to pay the principal of $4,937,940 of premium bonds, now extant, which are payable before any of the Constitutional bonds can be called for redemption. The premium bonds were authorized by an act of Legislature, which does not allow any increase of debt until they are paid. The rate of taxation is 2.2 p. c., 1 p. c. for the bondholder, 1 p. c. for the city's alimony, and 0.2 p. c. for sewerage and water tax. No default made in payment of interest. Authority, T. 20,000	5s of July 15, 1904	J. & J.

Total city funded debt as above (excluding $977,000 school bonds), $5,215,250; city certificates outstanding, $18,891—total outstanding indebtedness, $5,234,140. Of the total bonded debt, $2,556,000 is a special lien upon the city's water and light plant, the surplus earnings of which are applied to the payment of the interest on the indebtedness and the creation of a sinking fund therefor. The city of Duluth has, therefore, a bonded debt other than the indebtedness of the water and light plant amounting to $2,678,141. All assessments levied previous to adoption of present charter (March 8, 1900) are being credited to the sinking fund. The charter provides for levy of one mill for sinking fund; this produces approximately $26,500 per annum on the present valuation. Of the city's total bonded debt ($5,215,250), $1,686,000 bear 4 p. c.; $1,063,000 bear 4½ p. c.; $645,250 bear 6 p. c.; $1,811,000 bear 5 p. c. and $10,000 bear 7 p. c. interest.

Assets and Liabilities, Jan. 1, 1903.—Bonded indebtedness (as per preceding statement) $5,215,250; improvement certificates, $18,891; floating debt (orders outstanding), $5,135—total liabilities, $5,239,275. Contra: Cash in bank, $300,519; cash in hands of county under special act, $50,000; due from assessments, $60,050; accrued interest on same, $14,000; taxes, 1901, and previous years, $67,147; taxes, 1902, levy, $456,110; due from county "assessment," $115,202; department inventories, equipment, $273,192; fire department, real estate and buildings, $153,700; miscellaneous real estate, etc., $646,325; water works and gas works, $2,765,097; Park Boulevard system, $549,158—total, $5,450,500. Excess of assets, $211,225. Receipts, year ending Dec. 31, 1902, $1,457,534; balance, Jan. 1, 1902, $223,760—total, $1,681,295. Expenditures, $1,380,776. Balance, Jan. 1, 1903, $300,519. The charter provides, as an additional source of revenue for the sinking fund, a tax of one mill, which produces approximately $25,000 per year on the present assessed valuation of real and personal property. Bonds, except refunding, are coup. for $1,000 and $500 each. Interest on city bonds payable in New York as follows: On Duluth Gas & Water Co. 6s at Central Trust Co.; on West Duluth 6s, at Nat. Park Bank; on all other bonds at American Exchange Nat. Bank. Interest on School District 5s of 1904 by Farson, Leach & Co., New York; on Lakeside general fund at Duluth; on all others at American Exchange Nat. Bank, New York. The refunding bonds are not strictly a liability of the city, as they were issued by the village of Duluth under a special act of the Legislature which provides that the County Commissioners of St. Louis County shall levy a special tax to pay the interest on them and provide a sinking fund to meet them at maturity. The city's debt is limited by charter to 5 p. c. of assessed valuation. No default has ever been made in payment of obligations. Authority, W. S. McCormick, City Comptroller.

Sinking fund provisions: Under the charter the Assembly must appropriate $1,200,000 annually to pay debt and interest thereon; the amount of the $1,200,000 not required for interest constitutes the sinking fund for the redemption of the debt existing on April 7, 1890, and bonds issued in renewal thereon and for no other purpose. On the basis of renewing the city's debt for which the sinking fund was established, at 4 p. c., the debt will be extinguished in 1927. The sinking fund revenue accruing each year is used to redeem or purchase bonds. The resources of the sinking fund on April 8, 1902, amounted to $653,869.

Under the State Constitution the limit of the city debt would be 5 p. c. of the value of the taxable property therein, but under amendments to the State Constitution the city was first authorized to issue $5,000,000 of bonds in aid of the World's Fair celebrating the Louisiana Purchase Centennial, and also to exclude from the computation in determining the aggregate indebtedness of the city might incur $6,111,000 of a county debt assumed by the city at the time of separation from the county, and also $5,808,000 of water works indebtedness; the city may now increase its indebtedness $8,000,000. By Act of the Legislature arrears of taxes are made liens on property, and if not paid within two years, the property can be sold to satisfy them. The receipts from RR. tax amount to about $340,000 annually. George R. Hough, City Comptroller.

* Not fundable 20 years after date of maturity. † Joint Resolution approved Dec. 22, 1891.

Interest on issues marked (*a*) is payable at the State Treasury, Columbia, S. C.; on those marked (*b*) at the State Treasury and also at the financial agency in New York; on those marked (*c*) at the State Treasury, at New York, and at Charleston; on those marked (*d*) at the financial agency in New York, and on those marked (*e*) at New York, Columbia, S. C., and Charleston, S. C. The financial agency in New York is the National Park Bank; that at Charleston the South Carolina Loan and Trust Co.

The bonds and stocks issued prior to 1867, including the valid part, 1st issue, of Interest Public Debt bonds, and valid part of the Conversion bonds, also the interest to July 1, 1893, are fundable at 50 p. c., principal and interest to July 1, 1893, in new 4½ p. c. bonds, authorized by act, 1892, and interest payable from July 1, 1893. There are also valid bonds issued subsequent to 1866, which are fundable under the same acts upon like terms.

The funded debt now recognized as valid is provided for by Acts of Dec., 1873, to reduce the volume of the public debt, Dec. 24, 1878, for the funding of past due interest; Dec. 24, 1870, and Feb. 19, 1890, for the funding bills of Bank of State; and of March 22, 1878, for the funding of claims prior to Dec. 1, 1876. The bonds authorized by Acts of 1889 and 1890 were for the purpose of retiring the Brown consols before maturity, but owing to the rigid requirements of the act very little progress was made in exchanging.

All these were represented by consols Brown and Green (the latter containing some invalidity), and $15.11 deficiency stock, the last fundable in Blue 4½ p. c. bonds. Under Act of 1892 Brown consols and valid portions of Green consols and interest as stated, are fundable at par in new Brown 4½ p. c. bonds. Bonds formerly fundable at 50 p. c. off in consols are now fundable in New Brown 4½ p. c. bonds.

The Act of Dec. 22, 1892, provided for the redemption of that part of the State debt known as the Brown Consol. bonds and stocks by issue of other bonds and stocks. These bonds bear interest at 4½ p. c. per annum from Jan. 1, 1893, payable on July 1 and Jan. 1, in currency, at the State Treasury, Columbia, S. C., or at the agencies of the State, viz.: at South Carolina Loan and Trust Co., Charleston, S. C., and at the National Park Bank, New York, N. Y. The principal of the coup. bond and stock certificates of this issue becomes payable at the end of 40 years from Jan. 1, 1893, the State reserving to itself the right of anticipation, after the expiration of 20 years from the date of issue, on the terms and conditions expressed or endorsed on the bonds and certificates. The coup. bonds and stock certificates are exchangeable, the one for the other, on their presentation at the State Treasury, in Columbia, S. C. The bond and stock certificates of this issue are free from all taxes, State, county, and municipal, and are secured by a lien on the phosphate beds of the State and a cumulative sinking fund derived from the phosphate royalty. The sinking fund amounts annually to $75,000, and is to be invested in these bonds if obtainable at a reasonable price. The interest is secured by levy on the taxable property of the State, and the interest coupons and the principal at maturity are receivable for taxes due the State in same year except tax for the support of the public schools.

Constitutional Limitations, etc.—See MANUAL for 1896, page 1477.

Indebtedness of Cities and Towns in the State of South Carolina.

CHARLESTON, Charleston Co.—Incorp.—town in 1783; city in 1836. Pop. 1890, 54,955; 1900, 55,807. Ass'd val., 1902: R., $12,528,923; P., $5,264,662—total, $17,793,585. Tax rate per $1,000, 1901—State, $10.25; school, $1; city, $28.50—total, $39.75. Real estate assessed about 40 p. c. actual value. Included in the city tax ($28.50) is $3 for the So. The College Loan is all held by the Trustees of the City College.

The above bonds were issued mostly to retire 6 p. c. stock issued for railroads and improvements. Interest payable at the City Treasury. Coupons are receivable for taxes. Article 8, Sec. 7 of the State Constitution, ratified Dec. 4, 1895, provides that "No city or town in this State shall hereafter incur any bonded debt which, including existing bonded indebtedness, shall exceed 8 per centum of the assessed value of all the taxable property therein." A recent Act of Legislature has given cities in the State the privilege to issue bonds beyond the constitutional limit for the purpose of water, light or sewerage, after being voted for by the qualified election. No default has ever been made in payment of any obligation of this city. Authority, J. O. Lea, City Treas.

COLUMBIA, Richland Co.—Incorp.—town in 1790; city in 1851. Pop. 1900, 26,373. Ass'd val., 1892: R., $3,254,105; P., $1,703,196—total, $4,957,301. Estimate of actual value, $10,000,000. Funded debt (latest returns), $852,186 30-yr. $100, $500, and $1,000 coup. bonds due July 1, 1910, interest Jan. and July, at the office of the City Treasurer, and $75,000 6 p. c. 1st mtge. Water bonds, issued in 1891 and due Jan. 1, 1921, int. Jan. and July.

The bonds of 1910 bear 3 p. c. to 1900, and 4 p. c. thereafter. The coup. bonds are free from city tax and the interest on them is payable at the City Treasurer's office. The coupons are receivable for taxes except water rates. The city's water works are valued at $800,000, and the water works income is in excess of the interest on water bonds.

Default was made on bonds prior to 1876 during the period of "reconstruction." The present bonds were issued to fund city debt. The city's power of creating debt is limited to one-eighth of the assessed valuation.

STATE OF SOUTH DAKOTA.

History.—See North Dakota. Admitted into the Union Nov. 2, 1889. Area, 76,850 sq. miles. Pop., 1890, 328,808; 1900, 401,570. Tax Levy.—Extract from the report of the State Auditor for 1895-96: "The provision for a two mills levy for general State purposes is not sufficient under our present system of assessment, and the amount of interest paid out on funding and revenue warrants annually is a constant reminder of this fault. The plan of levying a deficiency tax every second year is not a business-like proceeding, and the Legislature should submit to the people an amendment to the Constitution providing for a change in this direction. An act providing that not to exceed three mills per annum and no deficiency tax might be levied, except in case of war or extraordinary requirements, would place things in a much more satisfactory condition. It would save thousands of dollars annually, which now go East as interest to holders of revenue warrants." Tax rate for 1896: For general fund, 2 mills; special sinking fund, 0.1 mill; 1895 bonds, 0.1 mill; for bond interest and sinking fund, 1.8 mills.

MEMPHIS, Shelby Co.—Incorp. as a city in 1827. Pop. 1890, 64,495; 1900, 102,320. In Feb., 1898, through Legislative Act, considerable contiguous territory was annexed to the city. In 1879 the city's charter was repealed, the yellow fever epidemic of 1878 making it impossible for the city to meet its obligations promptly. The Legislature granted the charter to the taxing district of Shelby Co., Tenn., with power and rights to permit its residents to apply the revenues of the city toward constructing a system of sewers, and to make such other improvements in sanitary matters. The taxing district was held by the courts liable for the entire debt of the city, but, under an Act of March, 1883, amended in 1885, a compromise of 50 p. c. was arranged. In 1891 the district was again incorporated as a city. The name of the government has since been changed to the City of Memphis. Ass'd val., 1902: R., $33,453,440; P., $6,984,380—total, $40,437,820. Est. actual val. about 60 p. c. of cash value. Average tax rate per $1,000, 1902, $18.60 to $25, according to wards. In addition, there is a special park tax of $15, and a special improvement tax for streets of $20 per $1.000 in the entire city.

Bonded debt, Jan. 1, 1903 (total, $2,980,000; annual interest charge, $160,095): consisted of $747,000 6 p. c. $1,000 Flippin Compromise bonds, due 1907; $986,000 6 p. c. $1,000 Taxing District bonds, due 1915; $1,247,000 4½ p. c. $1,000 gold Taxing District Refunding bonds, due in 1926, and $60,000 5 p. c. $500 Market House bonds, due 1917, 1922, 1927.

The $60,000 Market House bonds do not carry the general liability of the city, but are secured by mortgage on market house buildings and grounds. In 1896, the 6 p. c. bonds of 1913 were refunded and 4½s issued. The law governing the city does not permit the creation of any debt of any kind other than the above, but requires $1 on each $1,000 of the annual taxes to be credited to a sinking fund for the redemption of the indebtedness. Cash in sinking fund, $147,673. Net bonded debt, $2,832,327. No floating debt.

Interest payable Jan. and July, on Taxing District Compromise bonds and Flippin Compromise bonds at Memphis Nat. Bank, of Memphis, Tenn., or Nat. City Bank of New York, N. Y.; on Gold Refunding Taxing District bonds at Memphis Nat. Bank, of Memphis, Tenn., or U. S. Mtge. and Trust Co., of New York, N. Y.; on Market House bonds at Memphis Nat. Bank, Memphis, Tenn. The bonds are all free from local tax.

The Flippin Compromise bond coupons are receivable for taxes. As to the conditions under which the tax levy is made, see Manual for 1896, page 1481. Beginning with 1889, an annual sinking fund of 1 mill is levied, to be applied to the purchase and redemption of the bonds.

An annual levy is also made to pay interest on the bonds. The present debt was created by funding the old bonded debt, and the then existing floating debt during the period from 1883 to 1887, at an average rate of 60.53 per cent. Authority, W. B. Armour, Sec.

STATE OF VIRGINIA.

History.—The first State Constitution was formed in 1776, and the Constitution of the United States was ratified June 25, 1788. Seceded May, 1861, and was readmitted into the Union Jan., 1870. Area, 40,125 sq. miles. Pop., 1890, 1,655,980; 1902, 1,854,184. Ass'd val., 1898: R., $327,514,991; P., $112,959,468—total, $440,474,459. Average tax rate per $1,000, 1902, $4. For statement showing, by counties, the area, population (1890), ass'd valuation (1893), as also statistics of State population, ass'd valuation, tax rate, etc., for a series of years, see previous issues of the MANUAL.

Revenue Account, year ending Sept. 30, 1900.—Balance on hand, Oct. 1, 1901, $826,597.06; receipts during the year, $3,795,093.42—total, $4,621,690.48. Disbursements, $3,948,267.29. Balance, Oct. 1, 1902, $643,423.19.

Funded Debt outstanding consisted, Oct 1, 1902, of $6,329,554 3 p. c. 50-yr. Riddleberger bonds (Act of 1882), issued 1882, due July 1, 1932, int. Jan. and July, and $18,041,463 new bonds, Act of 1892 (details below)—total, $24,371,017.

Sketch of State Debt.—See MANUAL for 1896, page 1490.

The Riddleberger Act provided for the funding of all outstanding bonds and interest thereon and including July 1, 1882, in new 3 p. c. 10-50-yr. bonds at specified rates below par, varying from 47 to 31 on the different classes. This law was amended, and all bonds offered for funding after Jan. 1, 1885, were required to carry the coup. of July, 1885. The bonds are coup. or registered, and are interchangeable. Under the Act of 1892 registered bonds are for $100, $1,000, $5,000 and $10,000 each, and the coup. bonds for $500 and $1,000 each. These Riddleberger bonds were the only part of the debt not disputed. They are subject to call at any time after July 1, 1900. Interest payable Jan. and July, at Second Auditor's office, Richmond, Va.

The Legislature, in 1895-96, passed an act, re-enacting the Funding Act of 1892, under the provisions of which all old Virginia bonds could be brought in and funded into new bonds of 1991, on the same terms as those given for that act (see above), thus making coup. and registered bonds interchangeable. The Virginia State Sinking Fund Commission is authorized by the Legislature to invest the surplus revenues from time to time in bonds of 1991 or Virginia 3 p. c. to the extent of $100,000 per month. The Funding Act of 1892 expired by limitation Dec. 31, 1896. By Act of Jan. 25, 1898, bondholders were given till July 1, 1898, to accept the terms stated above and power was given the Commissioners of the Sinking Fund to extend the time till Dec. 31, 1898.

West Virginia Certificates.—The State of Virginia, in the readjustment of its debt in 1871, put aside one-third, or $15,239,370 funded certificates, as West Virginia's share. This obligation West Virginia repudiates and the matter remains at present unadjusted.

On July 28, 1898, an agreement was entered into between certain holders of the Virginia Deferred Certificates, whereby a committee consisting of John Crosby Brown, J. Kennedy Tod, George Coppell and Clarence Cary, was appointed to provide a plan for the settlement and payment of such certificates as might be deposited under the agreement. The Assembly of Virginia (by Act approved March 16, 1900) authorized the Va. Debt Commission to enter into a contract with this committee to effect a settlement. On June 13, 1900, $6,455,426 Brown Bros. & Co.'s certificates of deposit of Va. Deferred Certificates (issue of 1871) were listed on the New York Stock Exchange.

Debt Limitation.—See MANUAL for 1896, page 1490.

BUFFALO AND SUSQUEHANNA RAILWAY COMPANY.

(For map of this road, see page 1505.*)*

History.—Incorporated in New York Sept. 22, 1902, for the purpose of extending the Buffalo & Susquehanna Railroad from its present northwestern terminus at Wellsville, N. Y., to Buffalo, about 85 miles. Construction is now in progress. The company has acquired for terminals in Buffalo a tract of about fifty acres of land, directly on Lake Erie, within the limits of Buffalo harbor, adjoining the new plants of the Lackawanna Steel Company and the Buffalo and Susquehanna Iron Co. Development of the terminal property, including a ship canal 4,000 feet long, 200 feet wide and 23 feet deep, is under way. It is expected that the entire line will be in operation in 1904. Upon the completion of the line to Buffalo the Buffalo and Susquehanna RR. will be leased to the Buffalo and Susquehanna Ry. Co., which company also owns all of the common capital stock of the railroad company except the qualifying shares of directors. The railway company, in addition to paying as rental the interest on the outstanding bonds of the railroad company, will guarantee the dividend of 4 p. c. per annum on the preferred stock of that company.

Rolling Stock, June 30, 1903.—Locomotives, 3. Cars—freight (coal), 400; service, 31; total, 431. This rolling stock is all leased to the Buffalo and Susquehanna RR. Co.

Capital Stock.—The authorized capital stock is $10,000,000 divided into 100,000 shares of the par value of $100 each; amount outstanding June 30, 1903, $7,117,200, including $7,031,000 issued in exchange for 70,310 shares of the Buffalo and Susquehanna RR. Co., and $86,200 issued for cash.

Funded Debt.—The funded debt outstanding on June 30, 1903, consisted of $1,500,000 1st 4½s of April 1, 1953, secured by direct first mortgage on all the property of the company, whether now owned or hereafter acquired, including particularly the terminal property of fifty acres, more or less, on Lake Erie, partly in the city of Buffalo and partly in the town of West Seneca, and including also the line of railway in process of construction from Wellsville to Buffalo, N. Y., about 85 miles, with its equipment and appurtenances. The bonds are also collaterally secured by deposit with the trustee of $3,515,500 of the common capital stock of the Buffalo and Susquehanna RR. Co., being substantially the entire amount outstanding, together with any additional shares of said stock that may be issued hereafter, and by the pledge of a perpetual lease of the railroad to the railway company, to be executed upon the completion of the railway from Wellsville to Buffalo. The authorized issue is $6,000,000, as follows: Issuable for the general purposes of the company, $1,000,000; for the acquisition of terminals, $1,500,000; for the construction and equipment of the railway, $3,500,000. Principal and interest are payable in gold, free of all taxes. Provision is made for a sinking fund of $50,000 per annum, and, in addition, 1 p. c. of the par value of all bonds outstanding in excess of $5,000,000, to become operative on April 1, 1910.

Board of Directors, Buffalo and Susquehanna Ry. Co., elected Sept., 1902.

Total length of lines operated, June 30, 1903........................172.53 miles.
Sidings (owned and leased), 45.86 miles. Gauge, 4 ft. 8½ in. Rail (main track, sidings and spurs all steel), 60 to 80 lbs., of which 65 per cent. is 80 lbs.

1a. Lines Under Construction by Affiliated Companies.—The Susquehanna and Southern RR. is under construction from Sinnemahoning to Sykesville, Pa., 55 miles, and the Buffalo and Susquehanna Ry., from Wellsville to Buffalo, N. Y., 85 miles. Total length of lines under construction, 140 miles.

2. History.—Consolidation, April 1, 1901, of the original Buffalo and Susquehanna RR. Co. (see MANUAL for 1900, page 67) with the Galeton and Eastern RR. Co., the Susquehanna and New York RR. Co., and the Northern Susquehanna RR. Co. Through the Buffalo and Susquehanna Coal and Coke Co. (organized May 24, 1901, and controlled by ownership of all of its securities) this company has acquired control of large tracts of coal lands in Elk, Clearfield and Jefferson Counties, Pa., at Medix Run, Tyler, Du Bois, Sykesville, Troutville and Big Run. These properties are estimated to be underlain with about 71,000,000 tons of bituminous coal of good quality for steam and coking purposes. Still further purchases of the same kind are contemplated. In order to reach the coal in question the Buffalo and Susquehanna RR. Co., through a subsidiary corporation, the Susquehanna and Southern RR. Co., is building, and will finish in 1904, an extension, about 55 miles in length, from its present southern terminus at Sinnemahoning, Pa., to Sykesville, Jefferson County. A special market is being created for the coal by the construction of iron furnaces by the Buffalo and Susquehanna Iron Co. on terminal property on the lake front at Buffalo, N. Y. To this point the railroad is being extended from Wellsville, N. Y., about 85 miles, by the newly incorporated Buffalo and Susquehanna Ry. Co., statement for which see.

2a. Du Bois Southwestern RR. Co.—For the purpose of extending the Buffalo and Susquehanna system from Sykesville to South Bend, Pa., a distance of about 50 miles, to reach additional coal lands, the DuBois Southwestern RR. Co. was incorporated in Pennsylvania in Sept., 1903. The authorized capital stock of the company is $500,000.

3. Issue of Preferred Stock.—In April, 1902, an issue of $4,000,000 of 4 per cent. non-cumulative preferred stock was authorized, and $3,000,000 thereof has been issued. The proceeds of this stock are being invested in additional coal properties, in new equipment and in the extension of the railroad from its present southern terminus at Sinnemahoning to the coal fields at Tyler, Du Bois, and Sykesville, Pa.

4. Leased Lines.—The Wellsville, Coudersport and Pine Creek RR. and the Addison and Susquehanna RR. are leased to the Buffalo and Susquehanna RR. Co. for 50 years from

April 1, 1901, at a nominal rental. Their stocks and bonds are owned by the Buffalo and Susquehanna RR. Co., and the results of their operation are included in its income account.

These amounts are included in the item "Stocks, Bonds, etc." on the contra side of the account, and if deducted therefrom would leave stocks, bonds, etc., of other companies as follows: 1901, $832,000; 1902, $1,795,938; 1903, $3,820,658. Preferred stock outstanding amounted to $1,000,000 in 1902 and to $3,000,000 in 1903; amount of common stock outstanding in 1901, 1902 and 1903, $3,518,000.

10. Funded Debt.—The funded debt outstanding on June 30, 1903—total, $3,665,500 as per general balance sheet—consisted of the following (additional particulars are in the Ready Reference Bond List—see General Index):

$356,500 1st 5s *of Oct.* 1, 1913, secured by direct first lien on 101.53 miles of road. They are additionally secured by deposit with the trustee under the mortgage of the entire stock and bond issues of the Wellsville, Coudersport and Pine Creek RR. Co., and by lien on about 75,000 acres of hemlock timber lands and the timber standing thereon. Bonds to the amount of $1,470,000 have been issued, but $597,500 thereof have been retired by action of the sinking fund, and $516,000 have been exchanged for 1st refunding mortgage bonds, leaving $356,500 outstanding on June 30, 1903, of which $22,500 have been called for payment Oct. 1, 1903. No more bonds can be issued under this mortgage. The sinking fund retires each year, in October, an amount of bonds equivalent to the sum found by dividing the total amount outstanding by the number of years to the maturity of the mortgage. The bonds are subject to call for the sinking fund at par, in the order of their numbers, beginning with the highest.

$3,309,000 *1st refunding gold 4s of April* 1, 1951, secured by a first refunding mortgage on the entire property of the company, subject to the lien of the 1st mtge. 5 p. c. bonds on the property covered by that issue. Also collaterally secured on 3,000 acres of the coal property referred to in Section 2 and on the Addison and Susquehanna and Wellsville, Coudersport and Pine Creek RRs., by deposit with the trustee under the mortgage of the securities representing the direct ownership thereof; subject, however, as to the Wellsville, Coudersport and Pine Creek RR., to the prior deposit of its stock and bonds with the trustee of the 1st mtge. 5 p. c. bonds of Oct. 1, 1913. The authorized issue is $15,000,000. Bonds amounting to $3,500,000 are issuable against the present property of the company, for refunding purposes, etc.; $2,000,000 are reserved for the purpose of acquiring terminals; $2,500,000 for the purpose of acquiring coal properties; and $1,500,000 for new equipment. The remaining $5,500,000 of bonds, together with any of the bonds reserved as before stated, but not used for such purposes, may be issued for the purpose of constructing or acquiring additional railroad, at an average rate not exceeding $25,000 per mile, or for equipment, betterments and other corporate purposes. Bonds in addition to the $15,000,000 may be issued for double tracking at the average rate of $15,000 per mile. Principal and interest are payable in gold, free of all taxes. Interest is payable at the office of Fisk & Robinson, New York. Provision is made in the mortgage for a sinking fund of three cents for each ton of coal mined from the property pledged thereunder, to be set aside annually and invested in bonds if they can be purchased at 110 p. c., or otherwise in securities in which New York savings banks may invest; but bonds cannot be drawn for the sinking fund.

The bonds are subject to redemption on sixty days' notice at 102½ per cent. and accrued interest. Both principal and interest are payable in gold, free of all taxes. The bonds are for $1,000 each, in coupon form, with privilege of registration as to principal. To secure them the company has executed and delivered to the Central Trust Co. of New York its collateral trust agreement dated May 1, 1903, under which 282,940 shares of the common stock of the St. Louis and San Francisco RR. Co. have been pledged and deposited, and under which the company agrees to pledge and deposit all additional shares of stock of the St. Louis and San Francisco RR. Co. as and when acquired. The bonds can be issued only to a face amount equal to 60 per cent. of the par value of the common stock of the St. Louis and San Francisco RR. Co. pledged under the trust agreement. This agreement provides that until all the bonds shall be paid, all shares of the capital stock of the St. Louis and San Francisco RR. Co. in excess of the present issue ($5,000,000 1st preferred stock, $16,000,000 2d preferred stock and $29,000,000 common stock) shall be pledged, as soon as issued, as further security for the bonds.

2. History.—Consolidation, June 4, 1880, of the Chicago, Rock Island and Pacific RR. and various connecting lines. A sketch of the company's history down to the year 1888 is in the MANUAL for that year, page 397, and later developments are recorded in subsequent editions. The Fort Sill Branch (Lawton Line) was opened to Fort Sill in Aug., 1901, and to Lawton in Sept., 1901. During the year ending March 31, 1902, the extension from Liberal, Kan., to Texhoma, O. T., 55.88 miles, was completed.

Enid and Anadarko Ry.—Under the authority of the Board of Directors, given March 16, 1899, the Enid and Anadarko Ry. Co. was incorporated to construct a line from Enid to Anadarko, O. T. That line has been completed, also a line from Lawton to Waurika, O. T., a total length of 145.28 miles, as shown by the mileage statement.

Control of Choctaw, Oklahoma and Gulf RR. Co.—In April, 1902, the company acquired control of the Choctaw, Oklahoma and Gulf RR. Co., by purchasing more than two-thirds of its capital stock, and afterwards increased its holding to about 99 per cent. of the capital stock (see Sec. 3).

Lease of Burlington, Cedar Rapids and Northern Ry.—The company has taken a lease of the Burlington, Cedar Rapids and Northern Ry., for 999 years from June 1, 1902.

Under the terms of the lease this company assumes all obligations of the Cedar Rapids company and agrees to pay as rental dividends at the rate of 6 p. c. per annum on its capital stock. This company already owned a majority of the capital stock, and in connection with the lease it offered to purchase the remainder for the price of share for share in its own capital stock. On Nov. 1, 1902, it was announced that all except 1,897 of the 71,500 shares of capital stock of the Cedar Rapids company had been acquired.

Lease of Rock Island and Peoria Ry.—This company has taken a lease of the Rock Island and Peoria Ry. for 999 years from June 1, 1902, agreeing to pay as rental dividends at the rate of 6 p. c. per annum on the capital stock of the lessor, besides assuming all its obligations. The company already owned about two-thirds of the capital stock of the Peoria company, and under an offer to purchase the remainder at the price of share for share in its own capital stock, has acquired all except 132 of the 15,000 shares of capital stock of the Rock Island and Peoria Ry. Co.

Purchase of St. Louis, Kansas City and Colorado RR.—Since the close of the fiscal year ending March 31, 1902, the company has purchased all the outstanding shares of the capital stock and all the outstanding bonds of the St. Louis, Kansas City and Colorado RR. Co., whose line extends from St. Louis to Gasconade River, Mo., and is being extended to Kansas City.

El Paso Extension.—The company owns all the capital stock, except the shares held by directors, of the Chicago, Rock Island and Mexico Ry. Co. and of the Chicago, Rock Island and El Paso Ry. Co. The Chicago, Rock Island and Mexico Ry. Co., a corporation of the State of Texas, has constructed a railroad from a connection with the Chicago, Rock Island and Pacific Ry. at Texhoma, O. T., to a point on the boundary line between the State of Texas and the Territory of New Mexico, a length of 92.3 miles. At the New Mexico line it connects with the railway of the Chicago, Rock Island and El Paso Ry. Co., a corporation of the Territory of New Mexico, which railway extends to Santa Rosa, N. M., a distance of 110.3 miles, and connects there with the railway of the El Paso and Rock Island Ry. Co. That company is a part of the system of the El Paso and Northeastern Ry. Co., whose lines extend from Santa Rosa to El Paso. Traffic agreements between the companies named and the Chicago, Rock Island and Pacific Ry. Co., furnish for this company a through connection for passenger and freight business at El Paso with the Southern Pacific Co. for Pacific Coast points and with the Mexican Central Ry. for points in the Republic of Mexico.

Chicago, Rock Island and Texas Ry.—With the Chicago, Rock Island and Texas Ry. Co. this company has financial and traffic agreements under which it supplies all means necessary to build and equip the Texas road, in consideration of receiving all the stock and bonds of the Texas company; the bonds being issued at the rate of $15,000 per mile of completed road, with an additional amount for equipment, equal to the cost of same, but not exceeding $5,000 per mile.

12. Funded Debt.—The funded debt outstanding on July 1, 1903—total, $95,176,000—consisted of the following issues of bonds:

$12,500,000 1*st* 6*s of July* 1, 1917 (of which $400,000 were held in the treasury of the company), secured by first mortgage on main line and branches, 737 miles. The $400,000 treasury bonds have been sold since April 1, 1902.

$60,581,000 *gen. gold* 4*s of Jan.* 1, 1988, secured on the entire property and assets of the company, subject to prior liens. The mortgage authorizes a total issue of $100,000,000 bonds, to bear interest at not exceeding the rate of 5 p. c. per annum. Bonds to a sufficient amount are reserved for the retirement of prior liens; $5,500,000, bearing interest at a rate not higher than 4 p. c. per annum, may be issued after Jan. 1, 1903, for the retirement of bonds outstanding on connecting roads acquired from time to time, while the remaining bonds are reserved for additions and improvements, to be issued at not exceeding the rate of $1,000,000 a year.

$22,095,000 *Choctaw purchase money gold* 4*s*, in fifteen series, designated series B to P, payable one series each May 1 from 1904 to 1918. All the outstanding bonds of this issue, but not any part thereof, may be called for redemption at 102½ p. c. and accrued interest, on any interest day after 60 days' notice. The total amount authorized is $24,000,000, of which $23,568,000, being series A to P, of $1,473,000 each, have been issued, but series A matured and was paid off on May 1, 1903. The unissued balance of the amount authorized, $432,000, is reserved for the acquisition of the outstanding shares of common and preferred stock of the Choctaw, Oklahoma and Gulf RR. Co. The shares of common and preferred stock of that company already acquired, amounting at par to $15,628,900, are deposited as security for these bonds, and the remaining shares will be deposited as fast as they are acquired.

13. Land Department.—The company has received under the congressional grants, 550,193.51 acres. Total sales to March 31, 1902, equalled 550,155.22 acres. The conveyances to which the title is undisputed, during the year ending March 31, 1901, were 188.47 acres for $15,009.50, an average of $79.64 per acre; and by quit-claim, 790.63 acres for which $15 has been received. Lands unsold April 1, 1902, 38.29 acres. The bills receivable have been decreased by collections during the year, so that they now stand at $10,501.43, or $605.96 less than at last report. The amount of interest and rent collected was $915.09. The taxes paid during the year on lands and lots owned by this company amounted to $250.16. Remitted to Chicago during the year for sales and collections, $12,000.

2. History.—Organized June 22, 1876, as successor to the Burlington, Cedar Rapids and Minnesota RR. Co. Included in the main line as above are 12.57 miles of the Minneapolis and St. Louis RR., from Iowa State Line to Albert Lea, Minn., leased for 999 years on a guaranty of $150,000 of 7 p. c. bonds maturing June 1, 1927. When the bonds are paid off that link becomes the property of this company. The Cedar Rapids, Garner and Northwestern Ry. (Titonka Branch), the Waverly Short Line Ry., and the Cedar Rapids, Iowa Falls and Northwestern Ry. (Estherville to Germania, Ia., 38.09 miles) were absorbed in 1900, and in the same year extensions were built from Germania, Ia., to Albert Lea, Minn., 44.07 miles, and from Albert Lea to a point 2.82 miles north of Owatonna, Minn., 35.8 miles. The extension to Erin, Minn., 19.94 miles, was built in 1901.

3. St. Paul-Minneapolis Extension.—The construction of the company's line toward St. Paul and Minneapolis was continued during 1901 under great difficulties, but the grading was finally completed and track-laying finished on Feb. 7, 1902. Arrangements have been made with the Chicago, Milwaukee and St. Paul Ry. Co., for the use of their tracks and stations from Erin to Rosemount, Minn., 27 miles, and from Newport to Minneapolis, Minn., 18 miles. Ample grounds for freight terminals have been secured at West St. Paul, near the Roberts Street Bridge, and at Minneapolis, between Fourth and Fifth Streets and Eighth and Eleventh Avenues. The union passenger station at St. Paul and the passenger station of the Chicago, Milwaukee and St. Paul Ry. Co. at Minneapolis will be used for all passenger trains. The track connections with the Chicago, Milwaukee and St. Paul Ry. were completed at the close of the fiscal year ending June 30, 1902, but the company thought best not to operate over the line leased from the Chicago, Milwaukee and St. Paul Ry. Co. until the freight terminals should be completed.

4. Controlled Railroads.—The controlled railroads are nominally leased, but really owned by this company, and their bonds are guaranteed both as to principal and interest (see MANUAL for 1893, page 699). The South St. Paul Belt Ry. was purchased and taken possession of on Feb. 16, 1901. It is operated under a nominal lease, the same as the other controlled roads. The property consists of 3.58 miles of track from South St. Paul stock yards to Newport, Minn., and a bridge across the Mississippi River at Newport. The bridge and approaches form a connecting link in the line between Rosemount and Newport.

6. Lease to Chicago, Rock Island and Pacific Ry. Co.—A lease of this road to the Chicago, Rock Island and Pacific Ry. Co., for the term of 999 years from June 1, 1902, at a yearly rental amounting to 6 p. c. net on the capital stock, was made by the directors and ratified by vote of the stockholders on June 5, 1902. In connection with the lease, the Chicago, Rock Island and Pacific Ry. Co. offered to purchase the outstanding capital stock by issuing in exchange therefor share for share of its own capital stock. Up to Jan. 1, 1903, $6,960,300 of the stock was so exchanged.

2. History.—Reorganization, Oct. 3, 1894, of the Choctaw Coal & Ry. Co. The road from Weatherford, O. T., to Howe, I. T., a length of 268.60 miles, was completed in Nov., 1898, and an extension from Howe to the Arkansas State Line, 11.16 miles, on Dec. 1, 1899. The Choctaw and Memphis RR., extending from Hopefield, Ark., to the boundary line of the Indian Territory, a length of 282.04 miles, was purchased on June 27, 1900. The extension from Weatherford to Sayre, O. T., 64.14 miles, was completed and opened for traffic on Oct. 1, 1901, and the line to Ardmore, I. T., in May, 1902. Of these two extensions, the sections from Elk City to Sayre, O. T., and from Hartshorne to Ardmore, I. T., were built under the charter of the Western Oklahoma RR. Co., whose property and franchises were purchased by this company on May 1, 1902. The Choctaw Northern Division and the Anthony Extension were built by the Choctaw Northern RR. Co., and were purchased by this company on May 3, 1902. The Hot Springs Division and the Butterfield Extension were purchased on the same day, May 3, 1902, from the Hot Springs RR. Co.

The section of main line from Sayre, O. T., to Amarillo, Tex., about 112 miles, is owned by the Choctaw, Oklahoma and Texas RR. Co., all of whose capital stock is owned by this company. It was opened for traffic early in 1902. An extension is under construction from Amarillo to the boundary line of New Mexico, a distance of about 86 miles, to a connection with a line the Chicago, Rock Island and El Paso Ry. Co. is building from Tucumari, N. M.

Under the charter of Choctaw and Chickasaw RR. Co. an extension of the Western Oklahoma Division is being constructed from Ardmore, I. T., to a connection at the Red River with a line building from Dallas, Tex., by the Chicago, Rock Island and Gulf Ry. Co. The Choctaw, Oklahoma and Gulf RR. Co. also has a line under construction from Guthrie to Chandler, O. T., about 50 miles, besides about 150 miles of branches in Oklahoma and the Indian Territory.

On May 8, 1902, the Chicago, Rock Island and Pacific Ry. Co. purchased practically the whole capital stock of this company at the price of $60 per share for the preferred stock and $80 per share for the common stock, payment being made in 4 per cent. bonds secured by deposit of the shares purchased.

This company's mines are operated by the McAlester Coal Co., as general contractor, under an arrangement made in 1900. The coal is delivered in the cars at the breakers for a fixed sum per ton, the price being subject to adjustment from year to year, as the conditions require.

The capital expenditures for rebuilding that portion of the company's line between Portland, Me., and Rochester, N. H., and for the purchase of new equipment, were approved by the stockholders at their annual meeting Oct. 8, 1902; and to provide means of payment for these, and for other additions and improvements, issues of 20-year 3½ p. c. bonds to the value of $2,000,000 and 10,000 new shares of common stock were authorized. The bonds are dated Jan. 1, 1903, and are payable Jan. 1, 1923, and $1,000,000 of them were sold at par during January of the current year. The balance of the issue remains unsold. Of the authorized new issue of 10,000 shares of common stock, 2,000 shares were sold by auction during January last, at $190.50 a share, and the remaining 8,000 shares are as yet unissued.

To the trustees of the Eastern Railroad the sum of $101,751.01 has been paid, and they have therewith purchased and cancelled Mortgage Certificates of Indebtedness to the par value of $97,486.65. There has also been paid to the trustees of the Sinking Funds for the redemption of the Boston and Maine RR. Improvement Bonds, the annual contribution of $51,285, and the Sinking Funds now amount to $1,238,338.67.

With these changes in the company's funded debt and capital stock, the former now stands at $30,499,955.01, and the latter consists of 31,498 shares of preferred and 238,359 shares of common stock, a total of 269,857 shares. The company owns 11,282 shares of its common stock, upon which no dividends are paid, and they are deposited with the trustees of the Eastern RR. Co. as collateral security for the payment of its certificates of indebtedness due in 1906.

When the Connecticut River Railroad was leased to this company, Jan. 1, 1893, the lessor turned over to the lessee as part of its demised property, a balance of cash assets in its treasury amounting to $320,609.97. The lessor had outstanding $1,290,000 of 4 p. c. scrip, payable Jan. 1, 1903. By the terms of the lease, the lessee was given the option of having the lessor, at the date of maturity of this scrip, issue and give to the holders thereof in exchange at par, its bonds bearing interest at the same rate, or of having the lessor pay the same in cash. If the cash payment plan was selected, the lessee could return to the lessor the above mentioned cash balance of $320,609.97, and require that it be applied toward such cash payments, the balance to be provided through an issue and sale by the lessor of its bonds to an amount sufficient for the purpose. The latter plan was selected; the cash balance of $320,609.97 was repaid to the lessor, its bonds to the value of $969,000 bearing interest at the rate of 3½ p. c. per annum were sold at par, and the $1,290,000 of scrip was paid in full January 1, 1903.

This resulted in a reduction in the amount of this company's "lease accounts liabilities" by $320,609.97, and also in a decrease of its annual fixed charges payable under the Connecticut River RR. Co.'s lease of $17,685.

ILLINOIS CENTRAL RR.—The Cairo Bridge 4 p. c. gold bonds of Dec. 1, 1950, are secured by deposit of the entire issue of $3,000,000 1st mtge. 5 p. c. Cairo Bridge bonds of the Chicago St. Louis and New Orleans RR. Co. They are also secured, by deed of trust to the United States Trust Co. of New York, trustee, on the Illinois Central RR. Co.'s interest in the Cairo Bridge and in the approach thereto on the Kentucky shore as well as the approach on the Illinois shore of the river. The bridge and the Kentucky approach thereto were built by the Chicago, St. Louis and New Orleans RR. Co.; the Illinois approach was built by the Illinois Central RR. Co. The bridge and the Kentucky approach are leased to the Illinois Central RR. Co. until the year 2282 for a net annual rental of $180,000, payable in gold. The Cairo Bridge mortgage of the Chicago, St. Louis and New Orleans RR. Co. provides for the payment from this rental of the interest on the bonds secured by that mortgage, the remainder of the rental to be used until Dec. 1, 1901, for the accumulation of a contingent fund available in case of accident to the bridge, which fund, it was estimated, would reach $500,000 by that date. From and after Dec. 1, 1901, $20,000 per annum of this remainder of rental is applied to a sinking fund for the retirement of the Chicago, St. Louis and New Orleans Cairo Bridge 1st mtge. bonds at their maturity, while the remaining $10,000 of annual rental is to be devoted, if necessary, to making up the contingent fund to $500,000 in case it falls below that sum.

In further pursuance of the policy of reducing the number of subsidiary corporations, which was adopted in 1902, it is proposed to submit to a special meeting of the stockholders, to be held Nov. 14, 1903, propositions looking to the acquisition of the following railroads, which are now operated under lease, or are under construction: St. Louis and Ohio RR., Reevesville to Galconda, Ill., 17.2 miles; Christopher and Herrin RR., Christopher to Ziegler, Ill., 4.8 miles; Mounds and Olive Branch RR., Mounds Station to Olive Branch, Ill., 10.8 miles; Groves and Sand Ridge RR., Groves to Sand Ridge, Ill., 17.26 miles; the part of the Rantoul RR. lying in the State of Illinois, 66.21 miles; and the part of the Illinois and Indiana RR. lying in the State of Illinois, 56.5 miles. The parts of the two last-named railroads lying in the State of Indiana, 8.22 miles and 32.01 miles, respectively, were recently purchased at trustees' sale and have been conveyed to this company.

Funded Debt.—The amount of the funded debt of the company, as of June 30, 1902, should have been stated in the report for that year as $43,900,000, instead of $41,900,000, the difference being $2,000,000 of mortgage and collateral trust bonds, which had been issued and pledged as part of the collateral security for $5,000,000 National Storage Co. trust certificates, issued under an agreement with the Central Trust Co. of New York, dated Dec. 8, 1899. Under the terms of the collateral trust mortgage there were received during the year from the trustee $2,000,000 5 p. c. collateral trust bonds. Of these bonds $1,742,000 are in the treasury and $258,000 have been sold to the trustee for sinking fund purposes and cancelled. This accounts for an apparent increase of $1,742,000 in the funded debt.

An additional equipment trust, known as "Series G," amounting to $800,000, was created during the fiscal year, covering 10 passenger cars, 5 express cars, 10 milk cars, 135 box cars, 100 steel coal cars, 500 low-side gondola cars and 10 produce cars, and providing for the issue of 800 certificates of $1,000 each, bearing interest at the rate of 4½ p. c. per annum, payable Feb. 1 and Aug. 1, the principal being payable in eight annual installments of $100,000 each, beginning Aug. 1, 1903.

A general consolidated mortgage has been authorized to secure bonds to the amount of $150,000,000 covering the entire property and assets of the Lehigh Valley RR. Co., the stock of the Lehigh Valley Coal Co. and the stocks of the consolidated Lehigh Valley Companies of New York and New Jersey (see pages 687 and 688), with other stocks owned by the Lehigh Valley

RR. Co. No prior mortgages are to be hereafter extended at maturity (unless temporarily to escape a time of unusual stringency), but the bonds secured thereby are to be replaced by gen. consol. mtge. bonds as opportunity may offer. The rate of interest is to be fixed from time to time with each issue of bonds, but is not to exceed 5 per cent. The mortgage will provide that any amount of bonds thereunder, not exceeding $25,000,000 at any one time, may carry the privilege of their conversion in stock at the option of the holder, if the board shall so decide at the time of issue, but in no event shall the total issue of bonds under the mortgage at any time exceed $150,000,000. The outstanding fixed obligations of the company which must be provided for, exclusive of car trusts and some minor matters, amount in round numbers to $94,204,000, with annual interest charges amounting to $4,778,445. At the maturity of the present liens the general consolidated mortgage will be a first mortgage on all the property owned or controlled by the Lehigh Valley System, including the stock of the coal properties, except as to $12,600,000 of the Lehigh Valley RR. Co.'s annuity bonds. As these are a perpetual charge that lien can be removed only by their purchase or conversion. It is intended that $10,000,000 of the new bonds shall be issued to the company on account of the advances made and to be made by it in payment of car trusts matured, etc., in such amounts as the board of directors may authorize. It is not intended to make any issue of these bonds for a while, but they can be issued from time to time in the discretion of the board of directors to meet the financial requirements of the company. The outstanding bonds of the collateral trust mortgage will be called at the company's convenience for cancellation under the redemption clause in that mortgage.

Payments: Interest on bonds, $3,291,395.83; rentals of tracks and terminals, $467,362.93; taxes, $325,952.17—total, $4,084,710.93. The company is free from floating debt. The earnings show a gain in both gross and net receipts per mile, notwithstanding an increase of new mileage of 158.5 miles, as follows: Missouri, Kansas and Oklahoma RR. (leased), 113 miles; Atchison, Topeka and Santa Fé Ry., Dewey to Bartlesville (leased), 4 miles; Dallas, Cleburne and Southwestern Ry. (operated only), 10 miles; Granger, Georgetown, Austin and San Antonio Ry., 15.5 miles; other branch lines, 16 miles—total, 158.5 miles. Bonds have been issued against the newly acquired lines, as follows: $310,000 M., K. & T. Ry. Co. of Texas 1st mtge., 15.5 miles; $320,000 M., K. & T. Ry. Co. extension bonds, 16 miles. In addition to these, there were issued for refunding purposes the 1st mtge. 4 p. c. bonds of the Missouri, Kansas and Texas Ry. Co., against $187,000 of Tebo and Neosho RR. Co. 7 p. c. bonds retired; also $11,000 St. Louis Division 4 p. c. bonds against $8,000 Missouri, Kansas and Eastern Ry. Co. 2d mtge. 5 p. c. bonds retired. The balance sheet presents corresponding changes in comparison with last year. The total mileage under operation is 2,713 miles.

The construction of the Missouri, Kansas and Oklahoma RR. is provided for by an issue of bonds of that company, guaranteed by the Missouri, Kansas and Texas Ry. Co. Under the terms of the mortgage, this issue of securities is authorized, from time to time, as the railroad is completed in sections, and the M., K. & T. Ry. Co., owning all the stock of this subsidiary railway, has assisted the corporation by temporary advances, until the bonds of the latter become available by the completion of the requisite sections of mileage. The sum appearing in the balance sheet as representing advances for construction as above explained are only temporary and will be repaid in the course of a few months.

Agreements have been entered into whereby the Missouri, Kansas and Texas Ry. becomes one of the proprietary lines in the Terminal Railroad Association of St. Louis, owning the Union Depot and Terminals in that city used by all the railroads, thus affording the best possible facilities at that point on the most economical basis.

The amount of the company's capital stock in the hands of the public on June 30, 1903, was 699,711 shares, an increase of 163,528 shares. This increase is due to the exchange on April 1, 1903, of $16,211,900 Convertible Debenture Certificates (out of a total of $16,397,200), and to the sale of 1,409 shares of stock owned by the company. The first dividend on this increased capital was paid on June 30, 1903. The company held in its treasury at the close of the year 9,262 shares of its own stock.

In accordance with the action of the Board at its meeting of April 11, 1903, the capital stock will be further increased on Jan. 2, 1904, by the amount of 10 per cent. of the number of shares outstanding at the close of business on May 15, 1903. Of the number of shares thus offered to stockholders, 67,532 have been subscribed for and the installments due June 1, 1903, and Aug. 1, 1903, have not only been paid, but many subscribers have availed themselves of the privilege to pay their subscriptions in full.

The proceeds of the sale of this stock, after the payment of a temporary loan of $1,500,000, and of the $2,000,000 1st mtge. 4 per cent. bonds, which matured on June 1, 1903, will be used to pay for additional rolling and floating equipment.

The funded debt has been reduced $1,775,000 by the payment of that amount of the $2,000,000 of this company's 1st mtge. 4 per cent. bonds, which matured on June 1, 1903, and has been increased by the addition of $1,000,000 3½ per cent. bonds of the Old Colony RR. Co., issued to pay for land in South Boston, purchased of the Commonwealth of Massachusetts. The funds have been set aside for the payment of the remaining $225,000 4 per cent. bonds when presented. Interest on these bonds ceased June 1st.

On Oct. 1, 1903, 1st mtge. bonds of the Harlem River and Port Chester RR. Co. ($1,000,000 7 per cent. and $1,000,000 6 per cent.), guaranteed by this company, matured, and were paid by the sale of company and other stocks in the treasury.

The land in South Boston, about twenty acres, was purchased to provide freight grounds to supply the place of those taken by the terminal company, and new freight grounds have been purchased in Fall River and in Quincy to meet the requirements of these growing cities. Large expenditures have been made in the elimination of grade crossings in Fall River and Middleborough and at Dorchester avenue in Boston.

A contract has been made with the New York, New Haven & Hartford RR. Co., and the New England RR. Co., that in case of any termination of the lease, access may be had by this company with its own engines to and from the South Boston lands over their tracks, upon terms to be fixed by arbitration or by the Railroad Commissioners.

The Attleboro Branch has been substantially completed and is now open for traffic. There still remains in the hands of the New York, New Haven and Hartford RR. Co. a balance of $23,630.94 to be applied to unsettled land damages and other expenses.

Dallas Branch.—During the fiscal year, the Dallas branch, extending from Noell Junction, on the Ft. Worth division of the St. Louis Southwestern Ry. of Texas, to a connection with the rails of the Dallas Terminal Ry. and Union Depot Co., at Dallas, Tex., a distance of 12.13 miles, was completed, and opened for operation on May 15, 1903. Simultaneously the use of the G. C. & S. F. Ry. track between Wylie and Dallas, a distance of 25.2 miles was discontinued.

Dallas Terminal Railway and Union Depot Co.—The company has purchased all of the stock and bonds of the Dallas Terminal Ry. and Union Depot Co., thus acquiring complete ownership of all of its property including valuable real estate and franchises in the city of Dallas, Tex., and since its acquirement has extended the main track to a connection with the track of the new Dallas branch of the St. L. S.-W. Ry. Co. of Texas, enlarged and extended the yards, and erected new and commodious passenger and freight station buildings. At the present time the tracks of the Terminal Company measure about 9.5 miles, including main, connecting, spur and yard tracks. The Terminal Company opened for business on May 15, 1903.

Texas and Louisiana RR.—The property of the Texas and Louisiana RR. Co., extending from Lufkin to Monterey, Tex., a distance of 22 miles, was acquired by this system during the fiscal year, through purchase of the entire capital stock. By special act of the legislature of the State of Texas, in March, 1903, the sale to, and consolidation with, the St. L. S.-W. Ry. Co. of Texas was duly authorized, and the property was taken over by the latter company on July 1, 1903, and from and after that date will be operated as a part of its Lufkin branch. An extension of the line about 4.5 miles is now under construction. This line penetrates a dense yellow pine lumber district, with large mills already located along its rails, and constitutes a valuable feeder to the system.

The securities of the Pine Bluff, Arkansas River Ry., and the 2d mtge. income bond certificates of the St. Louis Southwestern Ry. Co., on account of which the 1st consol. mtge. bonds, mentioned above, were issued, have been deposited with the Bowling Green Trust Co., trustee, and pledged as security for the new bonds. The full issue of Dallas branch first mortgage bonds, $280,000, is now held in the company's treasury.

Equipment Trust Obligations.—The total amount of equipmnet trust notes outstanding June 30, 1903, was $3,519,731.47, all bearing 5 or 6 p. c. interest. The notes thus acquired are kept alive as security for the new bonds, and the amount of same is carried as an asset in the account, "Securities Owned," thus offsetting, to that extent, that liability carried in the account, "Equipment Trust Obligations."

The Seaboard Air Line Ry. 1st mtge. 4 p. c. bonds of 1900, therefore, are now secured by a direct lien upon the entire mileage of the Seaboard Air Line system, excepting only the Seaboard and Roanoke RR., 81.3 miles, the Roanoke and Tar River RR., 32.3 miles, and the Atlantic, Suwannee River and Gulf RR., 58.15 miles. The entire capital stock of the Roanoke and Tar River RR., and about 94 p. c. of the capital stock of the Seaboard and Roanoke RR. are, however, deposited with the trustee under the mortgage.

Collateral Trust Bonds.—The entire issue of Seaboard Air Line Railway 2-year Collateral Trust Bonds, due Oct. 1, 1902, were paid off at maturity, and the $4,000,000 of Seaboard Air Line Ry. 1st mtge. 4 p. c. bonds, which were held as security for them, have been released and delivered to the Central Trust Co., of New York, trustee, as security for the Seaboard Air Line Ry. Collateral Trust Bonds, the total amount of which now outstanding is $10,000,000, the security held by the trustee to secure them being $20,000,000 Seaboard Air Line Ry. 1st mtge. 4 p. c. bonds.

Atlanta and Birmingham Air Line Ry.—This is a consolidation of the East and West RR., Birmingham and Atlanta Air Line Ry. and Chattahoochee Terminal Ry. The East and West RR. extended from Cartersville, Ga., to Pell City, Ala., a distance, including branches, of about 123 miles. The Birmingham and Atlanta Air Line Ry. was organized to construct a railroad from Birmingham, Ala., to a connection with the East and West RR. at or near Coal City, Ala., and the Chattahoochee Terminal Ry. was organized for the construction of a railway from a point on the main line of the Seaboard Air Line Ry. near Atlanta, Ga., to a junction with the East and West RR. at a point about 14 miles to the northwest of Atlanta. The Atlanta and Birmingham Ry. is rapidly building the necessary links to complete the line between Atlanta, Ga., and Birmingham, Ala. The road is being built in a first-class manner. The new section, from Coal City to Birmingham and from Howells to Rockmart are being laid with 75-lb. steel rail. The Seaboard Air Line Ry. owns the entire capital stock of the Atlanta and Birmingham Air Line Ry. and has made an agreement with that company under the terms of which the Atlanta and Birmingham Air Line Ry. agreed to convey to the Knickerbocker Trust Co., of New York, and F. L. Eldridge, trustees, the entire property of the Atlanta and Birmingham Air Line Ry., covering the road between Atlanta, Ga., and Birmingham, Ala., constructed and to be constructed, including the terminals at the latter place, to secure an issue of bonds to be issued by the Seaboard Air Line Ry. to an amount not exceeding $10,000,000, and at a rate not to exceed $30,000 per mile, the first $6,000,000 of said bonds to be used for the construction of the road from Atlanta, Ga., to Birmingham, Ala., including its branches, about 200 miles. These bonds have been sold to a syndicate on satisfactory terms and will be issued and paid for as the work of construction on the Atlanta and Birmingham road progresses. The new bonds on the Atlanta and Birmingham Air Line Ry. are known as "Seaboard Air Line Railway Atlanta-Birmingham 1st mtge. 4 p. c. 30-yr. gold bonds." They are dated as of May 1, 1903, and the interest coupons are payable March 1st and Sept. 1st. As the Atlanta and Birmingham Air Line Ry. is as yet a separate corporation and as the $6,000,000 of bonds provided for have not been actually issued up to June 30, 1903, they are not included in the balance sheet of the Seaboard Air Line Ry., or in the latter's statement of funded debt.

A 99-year trackage contract has been made under date of Feb. 12, 1903, between the Kansas City, Memphis & Birmingham RR. Co. and the Seaboard Air Line Ry. under which the latter company secures equal rights for its freight and passenger trains from Birmingham to Bessemer and Ensley, Ala., about 16 miles, and a 999-year trackage contract dated Dec. 12, 1903, has been made between the Birmingham Belt RR. (owned by the S. L. & S. F. RR.) and the Seaboard Air Line Ry., under which, in the exercise of certain valuable franchises granted to it by the city of Birmingham, the Seaboard Air Line Ry. will lay tracks parallel to those of the Birmingham Belt Line over the most important portions of the routes now occupied by the latter's rails, the Belt Line and the S. A. L. Ry., thereupon operating the Belt road as a double track line in common, expense of maintenance being adjusted on a wheelage basis.

The Seaboard Air Line Ry., under date of June 1, 1903, made a traffic contract with the Florida West Shore Ry., under the terms of which the Seaboard Air Line Ry. becomes the preferred connection of the Florida West Shore Ry., and agrees to guarantee an issue of 1st mtge. 4 p. c. bonds of the Florida West Shore Ry., amounting to about $840,000 on about 60 miles of completed road owned, the agreement providing for the extension of the road further south under certain terms and conditions. This arrangement promises to be a source of considerable net revenue to the Seaboard Air Line Ry.

A traffic contract was made between the Seaboard Air Line Ry. and the Savannah and Statesboro RR., under date of Aug. 1, 1903, by which the Seaboard Air Line Ry. becomes a preferential connection of the Savannah and Statesboro RR., and agrees to guarantee an issue of 1st mtge. bonds on the Savannah and Statesboro RR., which extends from Statesboro, Ga., to Cuyler, Ga., 33.5 miles, amounting to $185,000, or about $5,200 per mile. The agreement contemplates the extension of the road beyond Statesboro, under certain restrictions, and upon certain conditions, therein set forth. The guarantee of these bonds is not likely to involve any liability on the Seaboard Air Line Ry., as the earnings of the Savannah and Statesboro RR. for the past twelve months have been more than 50 p. c. above the interest on its bonded debt.

It has been agreed that this property shall be consolidated with the New Orleans Terminal Co., which was organized in the interest of the proposed extension of the Frisco System into New Orleans, and which has acquired a valuable municipal franchise and an entrance into the city, besides real estate available for a passenger terminal on Canal Street and ample freight yards appurtenant to the railroad of the New Orleans Belt and Terminal Co., and also additional real estate adjoining the Port Chalmette property already controlled by the New Orleans Belt and Terminal Co. Under the terms of this agreed consolidation the Southern Ry. Co. will become an equal joint proprietor with the Frisco System in the combined properties and will thereby secure ample terminals in New Orleans for its traffic through Meridian, and that of the Mobile and Ohio RR. Co. and of the Alabama Great Southern RR. Co. It is expected that the connecting line for the traffic between Meridian and New Orleans will continue to be the New Orleans and Northeastern RR.

There has been no change during the year in the amount of capital stock of any of the proprietary companies issued and outstanding. The net reduction in the amount of consol. mtge. 4½ p. c. bonds was $643,000. There was no change during the year in the bonded debt of any of the proprietary companies.

During the year $1,400 Northern Pacific-Great Northern Joint C., B. & Q. collateral 4 p. c. bonds were issued in exchange for an equal amount of bond scrip, and $25,600 in payment for 128 shares of C., B. & Q. The terms of the sale include the right to extend the line from the terminus of Atlixco to a point at or near Coatzacoalcos on the Gulf Coast. Two lines have been reconnoitered, one crossing the Mexican Southern Ry. at Tehuacan, thence down the Rio Tonto to Tuxtepec; the other, and undoubtedly the line that will be located, crosses the Mexican Southern Ry. at Quiotepec and follows the valley of the Rio Quiotepec to Tuxtepec. The present line (Xico and San Rafael Ry.) is of 3 ft. gauge, and was opened for traffic in March, 1900. It extends from Calle de Cuautemoctzin to Apapasco, a distance of 110 kilometers, and from Atlixco the line has been built a distance of about 10 kilometers to Metepec. A stretch of 77 kilometers remains to be built to connect the tracks; about 10 kilometers beyond Apapasco are practically finished. It is the intention of the Mexican Great Eastern Ry. The length from Decatur north will be built under the charter of the Gulf and Chicago RR. Co. and the remainder of the line under this company's charter. Capital Stock.—The capital stock authorized to June 30, 1902, was $150,000,000. There was issued and outstanding to that date $131,912,900, leaving a balance of $18,087,100 authorized and unissued. Of that balance $337,100 was sold during the past fiscal year, making a total of $132,250,000 issued and outstanding on June 30, 1903, and leaving a balance of $17,750,000 authorized but not issued.

Funded Debt.—The funded debt outstanding on June 30, 1902, was $193,778,355.98. It was increased during the year ending June 30, 1903, by the issue of 3½ p. c. gold mtge. bonds as follows: For construction and other purposes, $1,000,989.02; as premiums in retirement of old securities bearing higher rates of interest, $1,201.20—total, $1,002,190.22. Total funded debt June 30, 1903, $194,780,546.20.

On January 1, 1903, the outstanding first mortgage 7 p. c. bonds of this company, amounting to $18,327,000, and its outstanding first mortgage 6 p. c. sterling bonds amounting to $5,724,094.66 matured, and a like amount of the 3½ p. c. gold mortgage bonds of the New York Central and Hudson River RR. Co. was issued in exchange therefor, the latter class of bonds thus becoming the first mortgage upon its property. This will effect an annual saving in interest of $784,000.

The balance of the sinking fund for the purchase and retirement of the 4 p. c. gold debentures of 1890 was $1,919,520.68 on June 30, 1903. There were purchased during the last year for account of this fund, $153,000 of 3½ p. c. Lake Shore collateral bonds and $40,000 of Michigan Central collateral bonds.

To reimburse the lessee company for sundry expenditures on its line, the Beech Creek RR. Co. issued during the year $335,000 additional stock, being the balance of the authorized total of $6,000,000 and $500,000 additional 2d mtge. 5 p. c. bonds, being the remainder of the authorized total of $1,000,000. The stock bears the guaranty of the New York Central and Hudson River RR. Co. for an annual dividend of 4 p. c., and the bonds its guaranty as to principal and interest.

In accordance with the terms of the lease of the Boston and Albany RR. Co. to the New York Central and Hudson River RR. Co., the lessor company will issue $2,500,000 terminal bonds bearing interest at 3½ p. c. per annum, which are to be used to reimburse the lessee company for expenditures on terminal improvements at East Boston; $1,000,000 of these bonds have been delivered to the lessee, and the proceeds of the sale of same applied as an offset to that amount of outlay at the terminal.

The Beech Creek Extension RR. was opened for operation on July 1, 1902, and has greatly relieved the congestion of traffic upon the Beech Creek RR. and contributed toward the largely increased tonnage movement on the Pennsylvania division. The development of the bituminous coal traffic from the territory adjacent to this division continues to be satisfactory, and new branches and connections under construction should still further increase the revenue from that source.

The detailed plans for the construction of the new terminal station in New York, and the installation of electricity as a motive power for suburban traffic, are under consideration. The plans for the approaches north of the Grand Central Station have been approved by the city authorities, and work upon the depression of the tracks, and also upon the construction of the viaducts to carry the various streets to be opened, will be commenced at once.

WASHINGTON, BALTIMORE AND ANNAPOLIS ELECTRIC RY.—It is reported that on July 12, 1903, James Christy, Jr., of Washington, D. C., and George Williams, of Baltimore, Md., were appointed receivers for this road.

WORCESTER AND SOUTHBRIDGE STREET RY.—On Aug. 29, 1903, C. M. Thayer of Worcester, Mass., and J. A. Hall of Southbridge, Mass., were appointed receivers of this road and of the Worcester, Rochdale and Charlton Depot Street Ry., the companies having contracted floating debts they were unable to carry. An examination of the accounts to show the condition of the properties on Aug. 31, 1903, revealed floating debts aggregating $1,152,175 for the Worcester and Southbridge Street Ry. Co. and $51,185 for the Worcester, Rochdale and Charlton Depot Street Ry. Co. These debts are believed to have been contracted in purchasing and improving the Pinehurst Park property and the Overlook property. A separate receiver, Rufus B. Dodge, of Worcester, Mass., has been appointed for these properties, and he is operating them in harmony with the railways. The following statement shows the condition of all the properties as of Aug. 31, 1903:

	Assets.	Liabilities.
Worcester and Southbridge Street Ry. Co.	$1,612,637 63	$2,152,175 32
Worcester, Rochdale and Charlton Depot Street Ry. Co.	103,010 66	91,185 18
Pinehurst Park	111,872 14	23,272 97
Overlook	191,790 57	58,213 57
Balance to be accounted for	305,536 04	....
Totals	$2,324,847 04	$2,324,847 04

Of this balance ($305,536.04) it is estimated that $50,253.35 was used for interest payments and $24,272.15 for operating expenses, leaving an amount of $231,010.54 for which no vouchers are on file.

The Worcester, Rochdale and Charlton Depot Street Ry. is leased to the Worcester and Southbridge Street Ry. Co. at a rental which would pay interest on its bonds and a small per cent. on its capital stock. Prior to the appointment of the receivers an issue of $40,000 in bonds of that road was authorized. These bonds are claimed as collateral security by the holder of a note of the Worcester and Southbridge Street Ry. Co., and are also claimed as collateral by the holder of a note of the Worcester, Rochdale and Charlton Depot Street Ry. Co. The bonds are not included in the schedule of liabilities, both by reason of the uncertainty as to their legal status and the fact that they are claimed as collateral to notes that are included in the liabilities.

THE OFFICIAL GUIDE

of the Railways and Steam Navigation Lines in the United States, Porto Rico, Canada, Mexico and Cuba

---

The Standard Publication used by all railway officials for business transacted between the several companies. The Lists of Officers and other information are corrected up to the date of each monthly issue.

The Editorial Department, in addition to general railway information, contains a monthly synopsis of the Proceedings of the Interstate Commerce Commission.

The Time Tables published in its columns are compiled directly from the Official Time Tables which are used by the employés, and from information furnished by the Officers in charge of Time Table Department of the several roads.

It contains, in addition to the Lists of Officers and their addresses, which are published at the head of the Time Tables, an Official List of the Officers in charge of General Passenger Department, with the names of the parties to whom remittances and on whom drafts for the settlement of such accounts should be made; the Official List of Designating Numbers assigned to the several transportation lines and used by the Passenger and Accounting Departments; an Official List of Purchasing Agents, with their addresses, a list of General Baggage Agents; a list of Railway Commissions of the various States, Traffic Associations, their Officers, etc.; also a table showing the Mileage of each road, and the Sleeping Car and Express Company operating over each.

The Index of Railway Stations contains the names of every railroad station in the United States, Canada and Mexico, with the State and the railroad on which they are located, corrected monthly. There is also a list of old and new names of stations, the names of which have been recently changed.

The standard of time by which each road is run is noticed at the head of each table, and a map showing divisions of Standard Time sections. Upon the front page of the cover of the OFFICIAL GUIDE is a diagram showing the standards of time in use in the principal cities.

A large number of fine Maps, showing the lines of the several roads, appear throughout the book. Also a new dissected map, corrected to date, covering the whole United States, Canada, and Mexico (north of Vera Cruz). A full list of all names by which the various railroads in the country have formerly been known, with their present official titles, is also a feature. The gauge of each road is shown. Morning trains are distinguished from afternoon trains by varying the style of type.

Also Maps, Time Tables, and list of Officers of Railroad and Steamship Lines in **CUBA and PORTO RICO.**

TWENTY-TWO YEARS OF PROTECTION.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

KRUPP

STEEL TIRES On Locomotive Driving Wheels and on Steel-Tired Wheels, give the best results for every variety of service.

The **CAST-STEEL WORKS of FRIED. KRUPP, Essen, Germany,** cover an area of 1,200 acres, employ about 27,000 men, have the most improved plant, and stand unique, from the fact that they have their own Ore and Coal Mines, Blast Furnaces, etc., and that *every* stage of manufacture is under their own supervision, and are not (like others), dependent on the open market for a miscellaneous assortment of crude material; which, in connection with 75 years' experience, enables them to turn out a product of a very superior quality, second to none, and at the same time the different grades of Steel are always of the *same uniform* quality.

Crank Pins, Piston Rods, Spring and Tool Steel, Steel-Tired Wheels, Axles, Shafts and Steel Forgings up to 70 Tons, Steel Castings, etc.

Steel of every description forged, rolled, etc., into any form or article desired.

After a test of over 45 years, the . . . KRUPP TIRE has proved itself the best in the market, and parties intending ordering Locomotives would do well to insert in their specifications that "KRUPP TIRES" be used on drivers, and thereby obtain an article which will give entire satisfaction. : : : : : : :

THE . . . .

KELSO COUPLER

The latest development in the M. C. B. type of freight coupler, having a "lock-set," making it unnecessary to lock up the uncoupling lever to sustain the lock in an unlocked position when shifting. This "lock-set" is positive in action and will not rattle down and re-lock by the jarring of the cars in passing over frogs and switches, or upon a slight movement of the knuckle. It is set to the locking position by the opening of the knuckle when the cars part, but not until the knuckle has opened 80 per cent. of its range of movement. This "lock-set" also acts as a "lock-to-the-lock" in a coupled position, making a positive lock, and preventing any possibility of accidental uncoupling by reason of the creeping of the lock.

These couplers are made of all steel, with either 5x5- or 5x7-inch neck, and are designed to meet the most severe conditions of service.
